- Role: Front end designer/Routing
- Tools: Express, Express Handlebars, MySQL, JavaScript, jQuery, ORM, Bootstrap, Google Fonts

EXPERIENCE

Frontend Engineer Intern

2021-2022

Weather Captain

San Diego, CA

As the frontend engineer intern, I was responsible for aiding in the expansion of the company into the scuba diving world. Combining my knowledge of frontend software engineering and my extensive background in the diving world, I helped create the prototypes and features for future site expansion.

- Updated template for new site using the Vue.js framework

Commented [1]: Hi Charles,

You have done a fantastic job developing your professional resume document. This is the most critical document in starting your job search, so I appreciate you taking the time to tailor it by submitting to Bootcamp Spot.

My immediate impression is that I can determine your desired role, as well as your qualifications for the position, in the first seconds of reviewing your resume! Your resume looks great and is Employer Ready. Now that your resume has been approved, I will be saving a PDF version onto our database and letting your Career Coach know. If you make any updates or revisions please resubmit your resume if you would like it to be reflected in our files.

Commented [2]: Your summary reads great!

Your summary provides an overview of career highlights and skills. It positions you well and makes a good first impression.

Commented [3]: You have showcased your strongest projects, with brief descriptions, technologies used, Github and deployed URLs. This section is well formulated!

- Weekly stand ups with team, at which I used my extensive knowledge of diving to aid in the growth of the company, both creatively and directionally
- Built multiple scuba dive calculators from scratch, developing multiple JavaScript functions and fully reactive layout

Substitute Teacher

New Brunswick County Schools

2020-Present

Wilmington, NC

Worked as a substitute at high-need schools in the area during the pandemic in order to assist teachers that were unable to teach in person due to health concerns. Quickly climbed the ranks and began creating and implementing lesson plans for nearly 100 students within 3 months of working.

- Ran a plethora of different classrooms ranging from middle school computer science to high school physical education.
- Collaborated with full time educators and administrative staff in order to provide students with best possible learning conditions during a time of mass confusion.

Reef Pirates Diving LLC

Lead Master Scuba Diver Trainer

2017-2019

Honolulu, HI

Hired as Lead Instructor after only 5 months experience working in the dive industry as a result of my client retention rates and copious five star reviews across multiple travel service review platforms. Trained clients from all over the world in the art of scuba diving at the highest rated dive shop on Oahu.

- Earned 500+ five star reviews on TripAdvisor while receiving none with less than four stars.
- Trained over 200 students with one of the highest success rates on the island.
- Lead-instructor responsible for training new/incoming staff after six months.
- Helped create training guides and charter procedures that increased safety and customer satisfaction.

EDUCATION

Certificate, Full Stack Web Development – University of North Carolina

Chapel Hill, NC

Bachelor of Arts, French and Francophone Studies – Bates College

Lewiston, ME
